Candidates Found Not to Meet the Criteria: 2,4-dichlorphenoxy acetic acid (2,4-D); 2,4-D n-butyl ester; 2,4-D isopropyl ester; 2,4-D isooctyl ester; propylene gylcol butyl ether ester (of 2,4-D); 2,4-D butoxyethanol ester; and 2,4-D dimethylamine salt

Jul 26, 2013

Candidates for Listing Via the Authoritative Bodies Mechanism Found Not to Meet the Formal Identification Criteria: 2,4-dichlorphenoxy acetic acid (2,4-D); 2,4-D n-butyl ester; 2,4-D isopropyl ester; 2,4-D isoprotyl ester; propylene gylcol butyl ether ester (of 2,4-D); 2,4-D butoxyethanol ester; and 2,4-D dimethylamine salt

On November 18, 2005, the California Environmental Protection Agency's Office of Environmental Health Hazard Assessment (OEHHA) issued a Notice of Intent to List *2,4-dichlorphenoxy acetic acid* (*2,4-D*); *2,4-D n-butyl ester*; *2,4-D isopropyl ester*; *2,4-D isopropyl ester*; *propylene gylcol butyl ether ester* (of *2,4-D*); *2,4-D butoxyethanol ester*; and *2,4-D dimethylamine salt* as known to the state to cause reproductive toxicity under the Safe Drinking Water and Toxic Enforcement Act of 1986¹ (Register 2005, No. 46-Z). This action was proposed under the authoritative bodies listing mechanism, based on documents published by the U.S. Environmental Protection Agency (U.S. EPA) on *2,4-dichlorphenoxy acetic acid*. The documents are titled, "Drinking Water Criteria Document for 2,4-D" (U.S. EPA, 1988) and "Reregistration Eligibility Decision for 2,4-D" (U.S. EPA, 2005).

OEHHA has determined that there is insufficient evidence that the criteria in Title 27, California Code of Regulations section 25306(d) have been met. Therefore, OEHHA will not proceed at this time with the Proposition 65 listing process for *2,4-D salts and esters* as known to cause reproductive toxicity.

Reregistration Eligibility Decision for 2,4-D Jun 4, 2005

Chemical Reference

- ▶ 2,4-Dichlorophenoxyacetic Acid
- ▶ 2,4-D n-Butyl Ester
- ▶ 2,4-D Isopropyl Ester
- ▶ 2,4-D Isooctyl Ester
- ▶ Propylene Glycol Butyl Ether Ester (of 2,4-D)
- ▶ 2,4-D Butoxyethanol Ester
- ▶ 2,4-D Dimethylamine Salt

Notice of Intent to List Chemicals: (2,4-dichlorphenoxy) acetic acid, 2,4-D n-butyl ester, 2,4-D isopropyl ester, 2,4-D isopropyl ester, Propylene gylcol butyl ether ester (of 2,4-D), 2,4-D butoxyethanol ester, 2,4-D dimethylamine salt

Nov 18, 2005
